4.1. Description of first aid measures Skin contact: Remove all contaminated clothes and footwear immediately unless stuck to skin. Drench the affected skin with running water for 10 minutes or longer if substance is still on skin. Transfer to hospital if there are burns or symptoms of poisoning. Eye contact: Transfer to hospital for specialist examination. Bathe the eye with running water for 15 minutes. Ingestion: Wash out mouth with water. Do not induce vomiting. Give 1 cup of water to drink every 10 minutes. If unconscious and breathing is OK, place in the recovery position. Inhalation: Remove casualty from exposure ensuring one's own safety whilst doing so. 4.2. Most important symptoms and effects, both acute and delayed Skin contact: Blistering may occur. Progressive ulceration will occur if treatment is not immediate. Eye contact: Corneal burns may occur. May cause permanent damage. Ingestion: Corrosive burns may appear around the lips.
